Enterprise: Chicken Bizna Commercial Poultry

Knowledge Base File: chicken_bizna.pdf

1. Official Product Price List

Current retail and wholesale price schedule for Kienyeji and Broiler stock:

Product / Breed Category	Age / Growth Stage	Unit Price (KES)	Description / Purpose
1-Day-Old Broiler Chick	1 Day (DOC)	KES 100	Fast-growing commercial meat breed chick.
1-Day-Old Kienyeji Chick	1 Day (DOC)	KES 500	Premium hardy improved indigenous breed chick.
Mature Broiler	4.5 – 6 Weeks	KES 500	Ready for slaughter / fully fattened table meat (1.8–2.2 kg).
8 Months Old Kienyeji Rooster	8 Months	KES 1,000	Growing indigenous cock suitable for breeding or meat.
Full Grown Kienyeji Female Chicken	Mature Hen (6+ Months)	KES 1,200	Mature laying hen / premium table bird.
Mature Kienyeji Rooster	Fully Mature Cock	KES 1,500	Prime adult rooster for breeding flocks or ceremonies.

2. Delivery & Logistics Policy

- **Within CBD: FREE DELIVERY** on all orders delivered inside the Central Business District.
- **Outside CBD:** Flat rate of **KES 300** for all deliveries to surrounding estates and outer zones.
- **Packaging:** Live birds transported in well-aerated crates; dressed poultry delivered in cold storage packs.

3. Enterprise Comparison: Broiler vs. Kienyeji

Production Factor	Commercial Broilers	Improved Kienyeji
Production Cycle	33 to 42 days (rapid turnover)	4.5 to 8+ months (meat & egg laying)
Primary Yield	Tender table meat	Organic meat, fertile eggs & active breeding stock
Housing Requirement	Deep litter indoor housing (1 sq. ft / bird)	Semi-intensive deep litter + outdoor foraging range
Vaccination Priority	Newcastle (ND) & Gumboro (IBD) by Day 21	Marek's, Newcastle, Gumboro, Fowl Pox & Fowl Typhoid
